

2017 Marlow Hunter 37

Not Your Father's Hunter.

Marlow Hunter 37 is a very different boat than previous Hunter models. David Marlow introduced improved techniques and materials, including Kevlar in the layup forward for collision protection; Kevlar encircling the hull and deck in the area of the chainplates to promote strength; craze-resistant gelcoat in the deck layup; a stainless steel L-bracket to reinforce the through-bolted hull-to-deck joint; and a moisture-resistant Nida Core honeycomb in the layup. Marlow-Hunters are some of the best built production boats in the industry.

Not a contractual agreement, price is subject to change. Contact us today for a personalized showing: Sales@GreatLakesSailingCo.com (231) 941-0535
